POLLUTION INCIDENT RESPONSE MANAGEMENT PLAN

Pollution Incident Response Management Plan – Vales Point

This Pollution Incident Response Plan has been made publicly available as per Clause 98D of the Protection of the Environment (General) Amendment (Pollution Incident Response Management Plans) Regulation 2012 and the Protection of the Environment Operations Act 2011. For the purpose of this plan a 'pollution incident' is defined as:

“An occurrence or set of circumstances during or as a consequence of which there is or is likely to be a leak, spill or other escape or deposit of a substance, as a result of which pollution has occurred, is occurring or is likely to occur. It includes an incident or set of circumstances in which a substance has been placed or disposed of on premises, but it does not include an incident or set of circumstances involving only the emission of any noise.” ('Pollution Incident', Dictionary, Protection of the Environment Operations Act 1997)

Notification of Pollution Incidents

In the case of an emergency **Morgan Ash** will contact the Emergency Services immediately on 000. After Emergency Services have been contacted, or in the case of non-emergency pollution incidents*, **Morgan Ash**, Vales Point site will notify the following Authorities as follows:

Authority	Contact Number
1. Fire & Rescue NSW (first notification) Doyalson Fire Brigade NSW Rural Fire Service - Fire and Rescue Fire and Rescue NSW Wangi Wangi Fire Station	000 02 4399 3497 02 4914 4500 02 4975 1107
2. EPA	131 555
3. NSW Health Wyong Hospital	02 9391 9000 02 4394 8000
4. SafeWork NSW	131 050
5. Local authority/s Wyong Shire Council Port Authority of NSW	02 4350 5555 02 4985 8222

*A pollution incident is required to be notified if:

“There is a risk of material harm to the environment which includes actual or potential harm to the health or safety of human beings or to ecosystems that is not trivial, or actual or potential loss or property damage of an amount or amounts in aggregate exceeding \$10,000.” (Clause 1, Section 147, Protection of the Environment Operations Act 1997)

Contacting Neighbours and Surrounding Communities:

For pollution incidents that extend beyond site boundaries and which cause, or threaten to cause, harm to people, property or the environment, **Morgan Ash**, Vales Point site, the **Senior Manager – NSW** or Supervisor, will contact by telephone the identified neighbours as soon as possible after the incident.

Due to the site location, it is unlikely that residential neighbours would be adversely affected by a release of product on site. In the very unlikely event that residential neighbours are affected, **Morgan Ash** will seek the advice of the Emergency Services and Authorities to notify all relevant neighbours by a suitable method appropriate to the situation.

The following neighbours have been identified as those most likely to be impacted by a pollution incident

Neighbour	Contact Number
Vales Point Power Station	02 4352 6111
Chain Valley Colliery (Delta coal)	02 4358 0800
Asset Team Leader External Plant	02 4352 6269 / 0419 633 623

Subsequently **Morgan Ash**, will letter box drop affected residents/neighbours with pollution incident information and site contacts details.

Pollution incident details will be placed on the Morgan Cement International Pty Ltd. website, <https://morgancementcommunity.com.au/your-environment/environmental-performance/>
